Before you begin

What this is

9 practice questions for ATI Testing **CFL12**, each with its answer key and an explanation. Answer a question before you read its key — the explanation is worth more once you have committed.

If something looks wrong

Send us three things and we will check it:

- the exam code, **CFL12**
- the question number
- the email address on your order

Write to **support@mometrix.net**. We reply within one business day.

QUESTION 1

SINGLE CHOICE

A candidate is preparing to take a proctored certification exam at an ATI Testing test center. What is the primary purpose of the proctored environment?

- ☐ A To allow candidates to consult study materials during the exam for reference purposes
- ☒ B To ensure the integrity and security of the examination process
- ☐ C To provide technical support for any software issues the candidate encounters
- ☐ D To grade the candidate's responses in real time and provide immediate feedback

ANSWER B

WHY A proctored testing environment exists primarily to maintain the integrity and security of the examination. Proctoring prevents cheating and ensures that all candidates are evaluated under consistent, standardized conditions. Candidates are not permitted to consult study materials, do not receive immediate grading feedback on proctored exams, and technical support is a secondary function rather than the primary purpose.

QUESTION 2

SINGLE CHOICE

Which item is a candidate typically required to present when checking in at an ATI Testing test center?

- ☐ A A handwritten note from the instructor authorizing the exam attempt
- ☐ B A printed copy of the candidate's class transcript
- ☒ C A valid, government-issued photo identification
- ☐ D A personal laptop computer for verification purposes

ANSWER C

WHY Standard test center policy requires candidates to present valid, government-issued photo identification at check-in so proctors can verify that the person sitting for the exam matches the registration. Instructor notes, transcripts, and personal laptops are not required and, in the case of outside materials or devices, are typically prohibited from the testing area.

QUESTION 3

SINGLE CHOICE

A candidate needs to reschedule a scheduled ATI certification exam appointment. What is the generally correct action?

- ☐ A Simply not appear at the original appointment and register again as a new candidate
- ☒ B Contact ATI Testing or the test center within the published rescheduling window to change the appointment
- ☐ C Wait until after the scheduled time has passed and request a refund
- ☐ D Ask a peer to attend the original appointment in the candidate's place

ANSWER B

WHY Candidates must follow the published rescheduling procedures and contact ATI Testing or the test center within the allowed rescheduling window. No-shows typically forfeit fees, sending a substitute is a violation of policy, and waiting for a no-show refund does not constitute a proper reschedule.

QUESTION 4

SINGLE CHOICE

Which of the following is prohibited inside the secure testing area at an ATI Testing test center?

- ☐ A Drinking from a clear, label-free water bottle when permitted by the center
- ☐ B Wearing a religious head covering that has been visually inspected by staff
- ☒ C Bringing a personal cell phone or other unauthorized electronic device
- ☐ D Using the computer mouse and keyboard provided at the testing station

ANSWER C

WHY Personal electronic devices such as cell phones, smart watches, and unauthorized electronics are prohibited inside the secure testing area because they can be used to capture or transmit exam content. Clear water bottles, inspected religious head coverings, and using the provided workstation equipment are typically permitted.

QUESTION 5

SINGLE CHOICE

After completing a proctored ATI certification exam, how is the candidate's performance most commonly reported?

- ☐ A As a percentile rank that places the candidate relative to all test-takers worldwide
- ☐ B As a letter grade from A through F computed from the raw score
- ☒ C As a pass/fail outcome and/or scaled score consistent with the program's published methodology
- ☐ D As a written narrative evaluation provided by the proctor immediately after submission

ANSWER C

WHY Certification exams at ATI Testing typically report results as a pass/fail determination and/or a scaled score based on the program's published scoring methodology. They do not use traditional A-F letter grades, proctors do not write narrative evaluations, and percentile rank is not the standard reporting format for these assessments.

QUESTION 6

SINGLE CHOICE

A candidate with a documented disability requires a non-standard testing accommodation. What is the appropriate first step?

- ☐ A Inform the proctor on the day of the exam and expect the accommodation to be provided immediately
- ☒ B Request the accommodation through the program's approved process before the scheduled exam date
- ☐ C Bring the necessary assistive device without notifying anyone in advance
- ☐ D Have a family member contact the testing center on the candidate's behalf on exam day

ANSWER B

WHY Testing accommodations must be arranged in advance through the program's approved accommodation request process so the test center can verify documentation and prepare appropriately. Same-day requests cannot reliably be honored, unannounced devices may not be permitted, and family members are not the appropriate channel for handling accommodation requests.

QUESTION 7

SINGLE CHOICE

Why are standardized certification assessments such as those administered by ATI Testing used in health-related education programs?

- ☐ A To replace instructor-issued course grades entirely
- ☒ B To provide a uniform measure of competency that can be compared across students and programs
- ☐ C To determine eligibility for federal financial aid
- ☐ D To assign clinical rotation placements

ANSWER B

WHY Standardized assessments provide a uniform measure of competency that allows comparison across students, programs, and institutions. They typically supplement rather than replace instructor grading, are not the basis for financial aid eligibility, and are not used to assign clinical placements.

QUESTION 8

SINGLE CHOICE

Before a candidate can sit for an ATI certification exam at a test center, what must typically be completed?

- ☐ A An oral interview with the program director
- ☒ B A published registration and payment process creating an active appointment
- ☐ C Submission of a handwritten research paper to ATI
- ☐ D Completion of a separate in-person orientation session

ANSWER B

WHY Candidates must complete the published registration and payment process and have an active, confirmed appointment before they are permitted to take the exam. Oral interviews, handwritten papers, and orientation sessions are not standard prerequisites for scheduling an ATI certification exam.

QUESTION 9

MULTIPLE CHOICE

Which of the following actions are violations of typical ATI test center policy? (Choose two.)

- ☒ **A** Communicating with other candidates during the exam
- ☐ **B** Removing exam content from the testing room in any form
- ☐ **C** Reading each question carefully before selecting an answer
- ☒ **D** Using a personal cell phone inside the secure testing area

ANSWER A - D

WHY Communicating with other candidates during the exam and using a personal cell phone inside the secure testing area are both prohibited because they compromise exam security. Removing exam content in any form is also a violation, but is not listed as an option here. Reading questions carefully is expected behavior, not a violation.
