Before you begin

What this is

9 practice questions for AWI Test Drive **PTD**, each with its answer key and an explanation. Answer a question before you read its key — the explanation is worth more once you have committed.

If something looks wrong

Send us three things and we will check it:

- the exam code, **PTD**
- the question number
- the email address on your order

Write to **support@mometrix.net**. We reply within one business day.

QUESTION 1

MULTIPLE CHOICE

Which two actions can a candidate perform from the main Test Drive workspace? (Choose two.)

- ☒ **A** Start the timed assessment
- ☒ **B** Review the exam objectives for the current delivery
- ☐ **C** Change the published passing score
- ☐ **D** Replace the certification exam with a different exam

ANSWER A - B

WHY The Test Drive workspace lets the candidate launch the timed assessment and consult information associated with the current exam. It does not provide authority to alter the published passing score or replace the certification exam.

QUESTION 2

MULTIPLE CHOICE

Which two response behaviors are supported by the Test Drive question format? (Choose two.)

- ☒ **A** Selecting one response from a list of options
- ☒ **B** Selecting two or more responses when the instructions identify the required number
- ☐ **C** Creating arbitrary response options during the assessment
- ☐ **D** Submitting an unlimited number of selections for every question

ANSWER A - B

WHY The supported response formats include a single-choice interaction and a multiple-choice interaction in which the prompt states how many answers to select. Candidates cannot add their own options or disregard the stated number of required selections.

QUESTION 3 SINGLE CHOICE

What is the primary purpose of the AWI Test Drive Prometric Test Drive?

- ☐ A To issue the official certification credential
- ☒ B To provide practice that helps a candidate become familiar with the testing experience
- ☐ C To replace instructor-led training
- ☐ D To guarantee that a candidate passes the certification exam

ANSWER B

WHY A practice test is intended to help candidates prepare for and become familiar with the testing experience. It does not issue a credential, replace training, or guarantee a passing result.

QUESTION 4 SINGLE CHOICE

When does the Test Drive assessment timer begin?

- ☐ A As soon as the candidate opens the practice-test instructions
- ☒ B When the candidate starts the timed assessment
- ☐ C Only after the first question is answered
- ☐ D When the candidate submits the final question

ANSWER B

WHY The assessment timer begins when the candidate starts the timed assessment. Reading preliminary instructions or reviewing objectives before starting does not begin the timed session.

QUESTION 5

SINGLE CHOICE

What should a candidate do when a multiple-choice question says "(Choose two.)"?

- ☐ A Select only the best single response
- ☒ B Select exactly two responses
- ☐ C Select every response that appears correct
- ☐ D Rank the two most plausible responses

ANSWER B

WHY The instruction explicitly requires selecting two responses. The candidate should not limit the selection to one, select every option indiscriminately, or rank answers.

QUESTION 6

SINGLE CHOICE

A candidate has answered every question and reviewed the selections. What is the next appropriate action?

- ☒ A Submit the completed assessment
- ☐ B Reset the timer
- ☐ C Add a new answer to an existing question
- ☐ D Close the browser and wait for automatic submission

ANSWER A

WHY After answering all questions and reviewing the selections, the candidate should submit the completed assessment. The other actions do not represent the normal completion workflow.

QUESTION 7 SINGLE CHOICE

What is the most appropriate use of feedback received after submitting a Test Drive assessment?

- ☒ **A** Use it to identify areas for further study
- ☐ **B** Assume that every missed question changes the final result automatically
- ☐ **C** Use it to change the scoring rules
- ☐ **D** Treat the practice score as an official certification decision

ANSWER A

WHY Post-assessment feedback can guide further study by identifying areas that need review. It does not provide a mechanism to alter scores or replace the official certification decision.

QUESTION 8 SINGLE CHOICE

Which prompt format indicates that exactly one option is required?

- ☒ **A** Choose the response that best answers the question.
- ☐ **B** Choose two.
- ☐ **C** Select all applicable responses.
- ☐ **D** Select no more than three responses.

ANSWER A

WHY A standard single-choice prompt asks for the one best response. "Choose two" specifies two, while "select all applicable" or an unstated maximum does not clearly limit the selection to one.

QUESTION 9

SINGLE CHOICE

Which environment is the Prometric Test Drive designed to familiarize a candidate with?

- ☒ **A** A practice version of a Prometric certification test experience
- ☐ **B** A production system for issuing digital certificates
- ☐ **C** A substitute for the candidate's certification exam booking
- ☐ **D** A platform for changing published exam objectives

ANSWER A

WHY The Test Drive is a practice version of the Prometric test experience. It does not issue certificates, replace the booking process, or permit changes to the published objectives.
